

Display Settings - Change header logo

To change the default language of your Sandbox Studio installation, go to "**Settings**" > "**Display Settings**" (1) and click on "**Update**" in the "**Header Logo**" section (2):

You can now select your custom header image:

Update Theme Settings

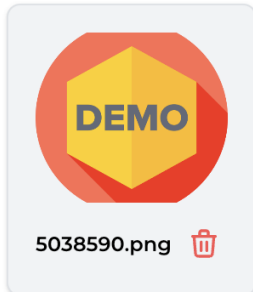

Update theme preferences

Header Logo

Logo displayed in top navigation

Current logo ▾

 [Replace logo](#)

Use a different logo for dark mode
If disabled, the same logo will be used in both modes.

Update

Cancel

1. **Upload your image file.** We recommend using transparent background so the logo displays flawlessly.
2. You can choose to have a **different logo for dark mode**. If this option is left unticked, the same logo as the first one is used.
