

# Display Settings

The screenshot displays the 'Display Settings' interface for Sandbox Studio. The top navigation bar includes the 'sandbox studio' logo, language 'EN', a moon icon for dark mode, and a user profile for 'Daniel Chen'. The left sidebar lists navigation options: Home, My AWS accounts, Management (Approvals, Leases, Events, Account Templates, Reporting), Administration (AWS Accounts, Settings), and System Settings (Display Settings, Email Settings, Cleaner Settings, Subscription). The main content area is titled 'Display Settings' and includes a breadcrumb 'Home > Display Settings'. It features three main sections: 'Language Settings' (Default Language: English), 'Header Logo' (Light Mode and Dark Mode logos), and 'Colour Settings' (Primary Colour and Navigation Bar for both Light and Dark modes). Each section has an 'Update' button.

Please refer to [UI Customisation](#) for more details about Display Settings.
