

How to display users profile pictures

Starting with version 1.1.0 of Sandbox Studio, users' profile pictures can be displayed in the interface:

User

Andy Brunson **OWNER**
andy@sandboxstudiosoftware.com

Admin Admin
admin@sandboxstudiosoftware.com

Amanda Davis
dev-amanda-davis@sandboxstudiosoftware.com

Laura Kim
laura.kim@sandboxstudiosoftware.com

IAM Identity Center

IAM IdC has a specific attribute for profile picture URL:

▼ **Additional attributes - optional**

Microsoft 365 immutable ID
Required for single sign-on access to Microsoft 365.

Photos
Add up to 3 photos for this user. One of them must be defined as primary.

Type	URL	Primary
<input type="text" value="headshot"/>	<input type="text" value="https://your-content-website/images/laura-kim.jpg"/>	<input checked="" type="radio"/> Primary <input type="button" value="X Remove"/>

[+ Add photo \(1/3\)](#)

This is the field that you need to map from your IdP in order to show the profile picture.

- "Type" will be ignored by Sandbox Studio.
- The URL will be used to display the image.
- Only the **Primary** photo will be displayed in Sandbox Studio
