

Terminate events

Depending on your event configuration, your event can be stopped :

- At a specific date
- After a certain duration (from the event start date)
- Manually, by an event manager

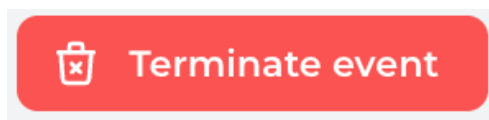

Event lifecycle

High level lifecycle of an event is as follows:

Stopping an event manually

Open the event and click on the "Terminate event":

All leases will be terminated, users will be notified, and accounts are going to cleanup before returning to accounts pool.
